JUVENILE COURT PROGRAM

The **Juvenile Court Program** began under the Circuit Court in 1970. The Program was initially funded through the Wisconsin Council of Criminal Justice grants and matching county funds. The **Juvenile Reception Center**, **Juvenile Detention Center** and **Juvenile Shelter Home** were placed under the direction of the Juvenile Court Administrator in 1972. The **Home Detention Program** was initially funded in 1974 and the **Youth Restitution Program (YRP)** began in 1978 (The YRP contract was transferred to the Human Services budget in 2008). Many changes have occurred to each program throughout the years and each has continually re-evaluated its mode of operation in order to fit the changing needs of the community. Following is a detailed description of each program in the department.

Administration and Reception Center:

The Juvenile Reception Center (JRC) is the point of referral for juveniles alleged to have committed a crime for which the apprehending law enforcement officer is unable to release the juvenile to a parent, guardian, or other responsible adult and/or believes the juvenile should be referred for secure custody. JRC then conducts an intake and makes a temporary physical custody decision. JRC also provides a number of other services related to the physical custody of juveniles and coordinating information with the courts, human services, and law enforcement. JRC is staffed with at least one Juvenile Court Counselor 24 hours a day.

Juvenile Detention Center:

The Juvenile Detention Center's mission is to provide a safe and secure environment, physically and emotionally, for juveniles placed temporarily by the court and to provide them with the opportunity to learn new skills that will enable them to contribute to the community when they leave. The Detention Center has a capacity of 24 juveniles and is located on the 2nd floor of the City-County Building. Juveniles are held in Detention primarily because: (1) There is reason to believe that if released they would cause harm to other persons, (2) There is reason to believe that if released they would be unavailable for further court proceedings, and/or (3) They have been found to be in violation of a valid court order and rules of supervision. The program operates 24 hours a day.

The Shelter Home:

The Shelter Home (SH) provides non-secure (unlocked) residential services for juveniles who need a place to stay pending further court action but for whom placement in a secure setting (Detention) is not necessary. The Shelter Home provides for placement of a total of 16 boys and girls who are involved in the delinquency or CHIPS systems and is located at 2402 Atwood Ave. Juveniles may stay at the Shelter Home for up to 60 days. The program operates 24 hours day.

Home Detention Program:

The Home Detention Program (HDP) is an alternative to detention or non-secure placement of youth. There is no time limit and the length of their involvement will depend on the court status of the juvenile. Community Youth Workers assist the parent(s) in providing adequate supervision and monitoring of juveniles. This program:

- Reduces the need for the placement of juveniles in detention or non-secure placements pending court disposition.
- Assists both the parents and juvenile in resolving conflicts that might otherwise lead to further problem behavior.
- Provides information to the court about the ability of the juvenile and family to maintain a safe and supervised plan that would enable the juvenile to remain at home at the time of court disposition.
- Provides a “bridge” between the court disposition and the implementation of longer-term supervision through the Neighborhood Intervention Program (NIP) or Youth Services of Southern WI by providing supervision to help maintain the situation at home until one of those programs can begin intensive supervision services.

This report seeks to compile information obtained from the above named programs and other sources into a single resource. The goal is to share what is known, statistically speaking, about those who were involved with the Juvenile Court Program last year.

The Juvenile Court Program has a proud history of providing the Dane County community with the greatest possible degree of professionalism and confidentiality. The supervisors and staff of the programs work hard to maintain a safe environment for the youth and families they serve. The Annual Report is one of the tools that the department uses to convey information to the partners involved with the Juvenile Court Program and is used to monitor their own performance, to address recurrent or newly emerging patterns, as well as community needs.

Juvenile Reception Center

The Juvenile Reception Center is Dane County's point of referral for juveniles alleged to have committed a delinquent act and are not released directly to a parent, guardian, relative or other responsible adult. The Juvenile Reception Center also provides a number of other services pertaining to the physical custody of juveniles, including the coordination of information with the courts, human services and law enforcement.

**Reasons for Referral
Chart 1**

A total of 600 juveniles, between the ages of 10 and 17, were referred to the Juvenile Court Program in 2017. In addition, 100 juveniles under an existing custody order were re-referred (violations of NSC or TR/SC) for a total of 700 referrals. Chart one above provides a percentile breakdown of four referral categories for which juveniles were referred. Eighty percent of the juveniles were referred for an initial intake. This number includes juveniles referred pursuant to a Court Order, a Warrant, a Capias, and/or for a new delinquency. It also includes direct placements at Shelter Home or with the Home Detention Program. Eleven percent of the referrals to the Reception Center were for allegedly violating the terms of an existing custody order for a Temporary Release from Secure Custody (TR/SC). Another three percent of the referrals were for allegedly violating the terms of an existing Non-Secure Custody order (NSC). The remaining six percent came to JRC to be placed in the Juvenile Detention Center or Shelter Home to serve sanction days (See **Sanctions** section for more information). To avoid duplicate data, NSC and TR/SC re-referrals are not included in the information that follows.

Placement of All Referrals

Chart 2

Chart 2 above illustrates the placement outcome of all referrals to the department. Other placements include the home of a relative or responsible adult, Foster Homes, or Group Homes. Table 3 below illustrates the number of referrals per month in 2017. January was the busiest month.

Referrals Per Month

Table 3

History of Custody Decisions made by JRC*

Table 4

Placement of Initial Referrals:	2013	2014	2015	2016	2017
Secure Custody	226 (36%)	225 (43%)	230 (46%)	248 (49%)	238 (50%)
Non-Secure Shelter	111 (18%)	100 (19%)	108 (22%)	97 (19%)	98 (20%)
Non-Secure Other	73 (12%)	52 (10%)	51 (10%)	48 (10%)	54 (11%)
Outright Released	208 (34%)	146 (28%)	110 (22%)	110 (22%)	92 (19%)
Total	618	523	499	503	482

*Excludes Sanctions, Change of Placement, Court Ordered HDP.

When a juvenile is referred to JRC for a custody decision, unless the outcome is already determined (e.g. sanctions), the on-duty counselor determines the appropriateness of placing the juvenile under a temporary custody order. If grounds exist, a counselor may place the juvenile under either Secure or Non-Secure Custody. The criteria for placing a juvenile under either form of custody are discussed in greater detail later in this section. If Non-Secure Custody is appropriate, the counselor may place the child at the Dane County Shelter Home, in the parental home, in a relative's home or in the home of another responsible adult. Should the counselor determine that a custody

order is not necessary at the time of referral, the juvenile is released. In certain cases with serious charges, counselors at the Juvenile Reception Center are given a directive from the Court and/or policy as to the most appropriate placement for a referred juvenile.

Table 4 illustrates a percentile breakdown of the determination of the need for custody and placement for juveniles referred for an intake in 2017. Fifty percent were placed in Secure Custody (SC). A portion of those juveniles placed under Secure Custody were so placed under Court Order, as a DOJC hold, or as an out-of-county courtesy hold. Placing a juvenile in Secure Custody requires that a Counselor will have found that at least one of the following applies:

1. Probable cause exists to believe that the juvenile has committed a delinquent act and either presents a substantial risk of physical harm to another person or a substantial risk of running away so as to be unavailable for future court.
2. Probable cause exists to believe that the juvenile is a fugitive from another state or has run away from another secured facility and there has been no reasonable opportunity to return the juvenile.
3. Probable cause exists to believe that the juvenile, having been placed in Non-Secure Custody by an intake worker, judge, or court commissioner and has runaway or committed a delinquent act and no other suitable alternative exists.
4. Probable cause exists to believe that the juvenile has been adjudged or alleged to be delinquent and has run away from another county and would run away from Non-Secure Custody pending his or her return.¹

The percentage of juveniles held in Secure Custody at the time of intake reflects the severity of the alleged delinquencies for which juveniles were referred in 2017, as well as volume of other referrals. The **alleged violations of criminal statutes** for which juveniles were referred are discussed in greater detail later in this section.

According to year 2017 statistics, thirty-one percent of referrals for a custody decision resulted in a determination of the need for Non-Secure Custody. Of that thirty-one percent, more than half [twenty percent] were placed under Non-Secure Custody at the Dane County Shelter Home (See **Juvenile Shelter Home** section for greater detail). The other eleven percent of juveniles placed under Non-Secure Custody in 2017 were placed in one of the following placements: parental home, foster home, group home, the home of a relative, with a responsible adult or at a hospital. Youth age twelve and older placed under Non-Secure Custody for Emergency Custody reasons by the Dane County Department of Human Services are included in this category. A counselor's determination that there is a need for Non-Secure Custody is based upon the belief that probable cause exists to believe the juvenile is within the jurisdiction of the court and there is probable cause:

1. That if the juvenile is not held he or she will commit injury to the person or property of others;
2. That the parent, guardian or legal custodian of the juvenile or other responsible adult is neglecting, refusing, unable or unavailable to provide adequate supervision and care and that services to ensure the juvenile's safety and well-being are not available or would be inadequate; and/or
3. That the juvenile will run away or be taken away so as to be unavailable for proceedings of the court or its officers.²

¹ Adapted from Chapter **938.208 (1)** through **(6)**, Wis. Stats.

² Adapted from Chapter **938.205 (1)** (1)(a) through (c), Wis. Stats.

Juveniles placed under Non-Secure Custody for a delinquency are subject to the same custody hearing guidelines as those placed under Secure Custody. A custody hearing must be held within 24 hours (excluding weekends and legal holidays) and the person/agency with whom the child has been placed is expected to ensure that juvenile will be available for court.

All juveniles who are referred to the Juvenile Reception Center for a custody decision, and for whom a temporary custody status is not necessary, are released either to their parental home or to another responsible adult as soon as possible. Nineteen percent of all juveniles referred for a custody decision in 2017 were released outright. Juveniles in this category were either not found to meet the requirements for Non-Secure or Secure Custody or it was determined that adequate supervision and services were already in place for the juvenile and his or her family.

JRC Referral Categories
Chart 5

JRC Referral Categories

Juveniles referred to the Juvenile Reception Center are divided into four main referral categories. The categories are:

1. Juveniles alleged to have violated one or more criminal statutes.
2. Juveniles alleged to be in need of protection or services.
3. Juveniles alleged to have violated one or more municipal ordinances.
4. Court related referrals category (Court Order, Sanctions, Capias, etc.)

The percentage of juveniles listed in each category of Chart 5 reflects only that a juvenile referred to JRC fit into that category. Juveniles can potentially fall into more than one referral category and may be entered more than once in each category. For instance, a juvenile who is referred for underage drinking, and who has also been charged with Battery and Disorderly Conduct, will be entered once in Category Three and twice in Category One.

**Category One:
Alleged Violations of Criminal Statutes
Chart 6**

Crimes against persons decreased from 30% in 2016 to 27% in 2017 and crimes against property increased from 25% to 30%. Crimes against health and public safety increased from 37% to 39%, while weapons crimes decreased from 5% to 3% and drug offenses decreased from 3% to 1%.

Crimes Against Public Health And Safety

Referrals for allegedly committing offenses against Public Health and Safety constituted the largest percentage of all delinquency entries in the year 2017. Disorderly Conduct (111) and Resisting (55) charges accounted for seventy-eight percent of the charges recorded for this category. Table 7 provides a list of the delinquencies for which juveniles were referred in this subsection.

Table 7

Crimes Against Public Health And Safety	Male	Female	Total
Disorderly Conduct (DC)	71	40	111
Disorderly Conduct While Armed	21	1	22
Eluding a Police Officer	7	2	9
Fugitive (Out of State)	2	1	3
Mistreatment of Animals	2	0	2
Driving Without a License	1	0	1
Obstructing	6	4	10
Resisting	44	11	55
Unlawful Use of Computerized Systems	1	0	1
Total	155	59	214

Crimes Against Persons

Juveniles referred for allegedly committing offenses against other persons represented twenty-seven percent of delinquency referrals in 2017. Battery charges (72) represented the largest portion of the entries in this subsection (152). Table 8 provides the list of the delinquencies for which juveniles were referred in this subsection.

Table 8

Crimes Against Persons	Male	Female	Total
Battery	26	22	48

Sexual Assault of a Child-Repeated Acts	2	0	2
Strangulation	1	2	3
Threats to Injure	2	1	3
Total	105	47	152

Crimes Against Property

In 2017, entries for Crimes Against Property accounted for thirty percent of delinquency referrals. Charges of Operating a Motor Vehicle Without Owner's Consent (53) and Criminal Damage to Property (44) accounted for the majority of the 167 total entries in this subsection. On the following page, Table 9 provides the list of delinquencies for which juveniles were referred in this subsection.

Table 9

Crimes Against Property	Male	Female	Total
Burglary-Commercial	5	0	5
Burglary-Residential	6	0	6
Criminal Damage to Property (CDTP)	31	13	44
Identification Theft	1	0	1

Chart 12**

**Most Prominent Referrals-Female
Chart 13**

**Most Prominent Referrals - Male
Chart 14**

**Category Two:
Children and Juveniles
Alleged To Be in Need of Protection or Services**

This referral category includes referrals to JRC for reasons not involving law violations. Juveniles alleged or found to be incompetent or uncontrollable are referred to as Juveniles In Need of Protection or Services (JIPS). Children suffering from illness, injury, or in immediate danger from their surroundings are referred to as Children In Need of Protection or Services (CHIPS).

In 2017, 65 juveniles were referred for JIPS and CHIPS reasons. Juveniles who were referred to JRC as a runaway were often likely to have

runaway from a placement outside of Dane County. Many of these juveniles are placed directly at the Shelter Home and never come to JRC for an intake decision. The following table describes the population referred to JRC as being JIPS or CHIPS.

Table 15

CHIPS and JIPS Referrals	Male	Female	Total
Briarpatch	0	2	2
Emergency Change of Placement (.357)	10	9	19
Illness, Injury, Immediate Danger (CHIPS)	11	20	31
Juveniles in Need of Protection or Services (JIPS)	0	0	0
Runaway From Dane County	0	1	1
Runaway From Other County or State	7	5	12
Total	28	37	65

Category Three: Alleged Ordinance Violations

Law enforcement personnel may issue citations to juveniles who violate municipal ordinances, which may include citations for underage drinking, obstructing or resisting an officer and curfew violations. If at all possible, law enforcement officers are required to release juveniles to their parental homes if taken into custody solely for violating a municipal ordinance. Citation related referrals to JRC are most commonly made in cases where the parents are unavailable, related family problems exist, or the juvenile is also referred on other offenses. In 2017, seventeen juveniles were referred for municipal citations. JRC typically assists law enforcement in these situations by contacting the juvenile’s placement so they can be released. This number does include those referrals where a juvenile received a municipal citation in addition to other delinquency allegations.

Category Four: Juvenile Court Related Referrals

Category four includes juveniles taken into custody for reasons related to an order of the Court. Juveniles in this category may be referred to JRC directly after a Court hearing or from a Juvenile Correctional facility so as to be available for Court in Dane County (Writ). Juveniles in this category may also be referred to JRC pursuant to a directive by the Court itself for failure to appear (Capias) or at the request of the Dane County District Attorney’s office (Warrant). This category also includes referrals for court imposed Sanctions due to violations of court ordered conditions as well as juveniles referred for Courtesy Holds from other counties.

Juveniles referred to JRC pursuant to Court related activities or orders represented twenty-nine percent of all referrals to JRC in 2017. The

information provided in the Table 16 gives a more in depth description of this population and the various reasons for referral.

Table 16

Juvenile Court Related Referrals	Male	Female	Total
Capias	16	14	30

Sanctions	27	12	39
Warrant	3	3	6
Writ	15	2	17
Total	182	73	255

Places of Release

The Juvenile Reception Center documents the places to which juveniles are released for all programs in the department (JRC, Detention, Shelter Home, Home Detention Program). These places are where a juvenile is released to when their referral and file is closed, which is due to their custody status terminating or placement ending. In certain circumstances, the juvenile may remain at Shelter Home or in Detention due to a new referral or based on a court order (e.g. the imposition of sanctions). Table 17 below illustrates the various placements to which juveniles were released in 2017.

Table 17

Gender, Race, Age and Other Information

The juveniles referred to the department in 2017 can be described by a variety of characteristics. Sixty-eight percent of the juveniles referred were male. White males constituted twenty-seven percent of all male referrals whereas Black males constituted fifty-eight percent. White females constituted thirty-three percent of all female referrals while Black females constituted fifty percent. The average age of youth referred in 2017 is 15 years, which is the same average age as youth referred in 2016. The largest age group of males referred were 15 years old (thirty-three percent of males referred) and for females the largest age group was 16 years (thirty-two percent of all females referred).

Year 2017 statistics indicate a slight increase in the percentage of Black youth referred from fifty-five percent in 2016 to fifty-six percent in 2017. The percentage of Black males referred increased slightly from fifty-seven percent to fifty-eight percent in 2017, while the percent of Black females decreased from fifty-five percent to fifty percent. The percentage of White youth referred in 2017 increased slightly from twenty-nine percent to thirty percent. The percentage of White males referred in 2017 was twenty-seven percent, a decrease from thirty percent in 2016. The percentage of White females increased from twenty-seven percent in 2016 to thirty-three percent in 2017. The following charts provide a detailed illustration of the population referred to JRC for intake in 2017.

Chart 23**

Referring And/Or Apprehending Agency

Juveniles were referred to the Juvenile Court Program via 25 referral sources in 2017. The Madison Police Department was the leading source of referrals this year with thirty-two percent of all referrals. The Court was the second most prominent referral entity, referring twenty-three percent of all juveniles. This was primarily due to court-ordered sanctions and Home Detention Program involvement.

Time of Referral

The Juvenile Reception Center records the time of referral for each juvenile referred. The time of referral provides an important look into number of intake decisions that occur outside of “normal” business hours of other county and private agencies. That knowledge may help inform other agencies of ways they could help the Department gather information for intake. It also provides insight to the Department about the number of staff that will likely be needed each day and what resources that staff is likely to have readily available at the time of intake.

Referrals Per Time Period
Chart 34

Juvenile Reception Center Counselors are involved in a variety of other court related duties that are not reflected by the number of initial intakes completed each year. Counselors are responsible for participating in court related duties and they have frequent contact with the Dane County Department of Human Services as well as other local, county, and state service providers. This case management and interaction helps ensure the coordination of services for youth held in secure custody. The overnight staff person at JRC helps to supervise the Detention Center, room checks, and conducts admissions for male clients who are ordered to Secure Custody in Detention, while also providing custody intake services if law enforcement refers a youth to JRC. This staffing pattern helps to maximize the efficiency of staff in the department.

Juvenile Detention

The Dane County Juvenile Detention Center primarily provides secure placement for juveniles in need of temporary confinement during all or a part of their court case. Some juveniles are placed in Detention on the basis of a sanction for violating their previous court-ordered rules of supervision. Juveniles from other area counties are also accepted for placement, which is a revenue source for the department. “OOC” denotes out-of-county placement in the Dane County Juvenile Detention in the table below. There are 24 beds in Detention, although the population can exceed 24 for brief periods of time.

DETENTION AVERAGE DAILY POPULATION (ADP) FOR 2017
Table 35

JUVENILE DETENTION TEN YEAR ADP HISTORY
Table 41

YEAR	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	AVERAGE
ADP	14.7	14.5	12.5	12.0	11.2	10.8	9.6	8.6	10.2	8.8	11.3

As noted in table 41 and the chart below, the Average Daily Population (ADP) of Juvenile Detention decreased in 2017. Of note this year, 1.5 of the total ADP was due to juveniles who were out-of-county residents, so the Dane County juvenile ADP was 7.3. This was the lowest ADP since records were kept beginning in 1976. Dane County began to accept youth from other counties in 2009.

DETENTION ADP HISTORY 2008-2017

DANE COUNTY JUVENILE DETENTION PROGRAMMING

Each year, youth in Detention benefit from diverse programming facilitated by some local organizations and department staff. Youth have participated in programs that teach life skills, coping mechanisms, job skills, physical health improvement and technical skills. The following are the programs that the youth have participated in:

Staff Facilitated Psycho-Educational Groups

Staff facilitate groups that allow youth to work on Decision Making Skills, Healthy Relationships, Anger Management, Honesty, Integrity and other Character Building activities. Youth participate in these groups on a daily basis.

UW Physical Therapy

Students from the UW Physical Therapy Department come once a week for 1 ½ hours to teach youth yoga, stretching, large muscle exercise and relaxation techniques. Youth receive skills that will allow them to remain calm in stressful, emotional and crisis situations.

Madison Public Library

Staff from the Madison Library teach youth the art of personal branding and messaging by use of technology including computers, iPads, etc. Youth have made animated videos by using action figures, clay and other objects and have also created some very elaborate recycle art projects through the Library service.

Briarpatch Youth Employment Groups

Briarpatch staff facilitate employment groups every two weeks which include resume building, interviewing and completing job applications. Youth are also taught how to become great job applicants.

Capoeira/Yoga

Capoeira is an Afro-Brazilian martial art that combines elements of dance, acrobatics and music. Youth participate in this art once a week and it also has some elements of Yoga and meditation.

Dogs on Call

Dogs on Call, through membership of Pet Partners, are a community organization that provides health and therapy through interaction with dogs. They provide services for residents in assisted living, UW students, hospitals and the Dane County Juvenile Detention Center. During each visit youth are allowed to pet dogs which serves as a therapeutic tool for youth that are homesick or who have pets of their own but are not allowed to see them while in custody. Some youth have never been in contact with animals and therefore this serves as their first experience being around a pet of any kind.

Community Connections and Church Services

Every Tuesday evening, an ecumenical group of pastors facilitates a voluntary group and individual meetings with youth and each Sunday a pastor leads a church service for any youth who would like to attend.

UW School of Psychology

Psychology students provide weekly lessons to youth on a variety of topics including Decision Making, Conflict Resolution, Problem Solving and Relationships.

Art

A volunteer artist leads an art group for youth every Thursday evening. Artwork is displayed in the Detention facility.

Restorative Justice

Jackie Millar leads a monthly group on restorative justice through discussing her story of being shot by juveniles and her journey of healing and forgiveness.

Cooking Class

Every Thursday morning the youth participate in a cooking class in the Detention kitchen. They learn to prepare meals that they would be able to make at a later time and they also are able to eat what they prepare.

UW Science Group

Every 1st, 2nd and 4th Friday the youth participate in a Science Group in which they learn about gravity, weight, volume, etc. through safe experiments facilitated by Master's level science students.

UW Adolescent Alcohol and Drug Abuse Intervention Program (AADAIP)

Staff from AADAIP conduct weekly assessments for youth and then provide information to assigned Social Workers if follow up assessments or services are necessary.

Juvenile Court Sanctions

One of the sanctions the Court may impose when a juvenile fails to comply with conditions of a court order is to place the juvenile in the secure detention facility or non-secure Shelter Home for a period of up to ten days per violation. In some cases, multiple violations result in consecutive sanctions being imposed (e.g. three violations could result in a sanction of thirty days).

In 2000, the District Attorney’s Office, the Juvenile Court Program, and other County service providers collectively united to initiate the Weekend Report Center at NIP as an alternative to Sanctions in Detention. In addition to the creation of the Weekend Report Center, the Courts also began ordering sanctions to places other than Detention; such orders placed some juveniles at the Dane County Shelter Home.

SANCTIONS BY MONTH FOR 2017
Chart 42

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	TOTAL
BOYS	1	2	2	4	0	4	2	3	2	3	2	2	27
GIRLS	3	1	1	1	1	1	0	1	1	1	1	0	12
TOTAL	4	3	3	5	1	5	2	4	3	4	3	2	39

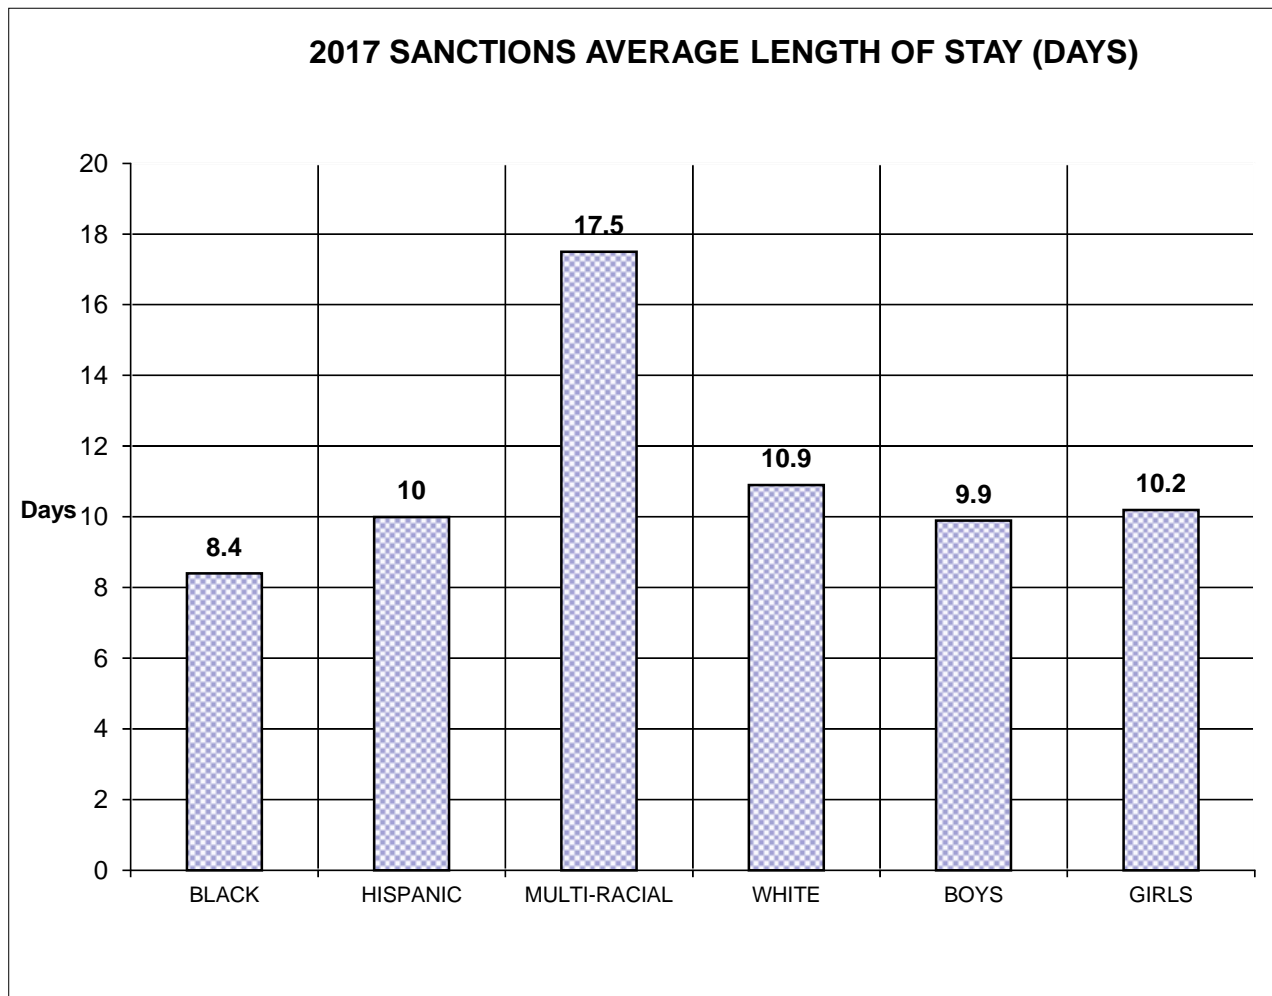

The chart and table above illustrates that 39 juveniles physically served sanctions either at the Detention Center or the Shelter Home. Seven juveniles are counted more than once because they had more than one sanction order in 2017. Thirty of the orders were served in Detention only, five were served at Shelter Home only, three orders included a combination of Detention and Shelter, and the remaining order was served at Shelter with credit for days served at a residential treatment facility.

Sanction days are either served all at once or include stayed days that can be imposed before the expiration of the sanction order. Imposed sanction days are a part of the original sanction order, but the imposition of the days only occurs when the juvenile further violates the dispositional court order and

a Social Worker imposes days. Sanction orders that were stayed without any days physically served are excluded from the data. The 39 sanction orders in 2017 where at least one day was served resulted in a total of 74 sanction placements that totaled 410 sanction days served for an average of 10.5 days served per order. Sixty-nine percent (283) of those days were served in Detention. Sanction orders decreased significantly from 2016 when there was 76 orders for a total of 1020 days served.

Average length of stay includes the total number of days served per sanction order, including imposed sanction days, regardless of placement. Table 43 illustrates the average length of stay by race and gender for juveniles serving sanctions. Black males accounted for thirty-six percent (14) of the total sanction orders, while White males accounted for twenty-eight percent (11).

Table 43

Juvenile Shelter Home

Located at 2402 Atwood Avenue, Madison, since 1975, the Shelter Home is Dane County's non-secure, short-term residential facility for juveniles who have been removed from their home or other placement and are awaiting court action or another placement. Shelter Home serves up to a total of 16 boys and girls ranging in age from 10 through 17.

Residents are placed at Shelter Home by the Juvenile Reception Center and/or by a court order entered by a Juvenile Court Commissioner or Dane County Juvenile Court Judge. Residents are placed for CHIPS or Delinquency reasons and are under a temporary physical custody order. Residents may remain at Shelter Home for up to 60 days following each admission. Shelter Home can also accept residents placed on a basis of an "Emergency Change of Placement" (Emergency-COP), pursuant to Wisconsin Statute 48.357 and 938.357. Residents placed under this status are admitted on the basis of Shelter Home staff approval, require no physical custody order, and are limited by statute to 20 days. Residents can also be placed by Juvenile Court Judges to serve sanctions days. These placements represent days spent at Shelter Home as a consequence for violation of a previous court order. Shelter Home can accept juveniles from other counties and can also serve as an overnight resource for Briarpatch referrals.

The following tables and charts describe juveniles referred to the Shelter Home in a variety of ways. Note that admissions to Shelter Home are new admissions that may be of the same juvenile.

**2017 Age of Children Admitted to Shelter Home
Table 44**

Age	Male	Female	Totals
10	0	0	0
11	11	0	11

Emergency-COP = Emergency Change of Placement, Ch. 48.357 or Ch. 938.357

**Shelter Home
Days in Residence
Chart 48**

The average length of stay this year was 11.3 days, up from 11.1 days in 2016. Until 2015, when the average length of stay was 11.0 days, the average length of stay has fallen steadily since 1990, when it was 24.3 days. In 2001, it was 14.7 days. In 2007, it was 11.0 days and in 2014, it was 8.0 days. Of those admitted in 2017, 83% stayed less than 20 days.

**Shelter Home
Average Daily Population

Minority members represented 72% of the Shelter Home population in 2017, which is an increase from 63% in 2016. White youth represented 28% of admissions in 2017, a decrease from 37% in 2016.

Home Detention Program

The Dane County Juvenile Court Home Detention Program (HDP) is designed to work with juveniles and their families on a short term basis to enable juveniles to continue living at home and avoid the need for secure custody (detention) or alternative placement. The Home Detention Program may also be assigned by the court to help monitor compliance with rules of supervision for a brief period subsequent to a court disposition. The goal is to help the juvenile remain at home, in school, and in the community.

Referrals to HDP Per Month
Chart 53

A total of 258 cases were assigned to the Home Detention Program in 2017, an increase from 215 cases in 2016. The length of time for which juveniles were under HDP supervision, starting in 2017 and in some cases extending into 2018, ranged from 1 to 194 days. Males comprised seventy-five percent of the referrals, whereas females comprised twenty-five percent. Males aged fourteen through sixteen accounted for eighty-five percent of all males assigned. Females aged fourteen through sixteen accounted for eighty-six percent of all females assigned. The following charts categorically illustrate the race and age of juveniles assigned to the Home Detention Program in 2017, when available.

Age of HDP Referrals
Chart 54

**HDP Participant Race
Table 55**

Juveniles are assigned to HDP supervision under both Court Disposition and temporary custody orders. Thirty-three percent of assigned juveniles in 2017 were under an order of Non-Secure Custody. Juveniles court-ordered to HDP as a bridge to the Neighborhood Intervention Program (NIP) or Briarpatch Youth Services (BYS) comprised twenty-five percent of HDP referrals. Juveniles under a Temporary Release from Secure Custody accounted for forty-two percent of HDP cases assigned in 2017. All of the assigned juveniles were alleged or adjudicated delinquent.

Dane County CASA

Dane County Court Appointed Special Advocates (“CASA”), as of October 2015, is a part of the Canopy Center. Dane County CASA follows the National Court Appointed Special Advocate Association model of programming. CASA trains and supports community volunteer advocates who are assigned by juvenile judges to children in the Dane County Juvenile Court system. CASA volunteers visit their assigned child(ren) on a weekly basis, correspond with service providers and adults in their assigned child(ren)’s life, provide informative reporting to the courts, and advocate for the safety, permanency, and well-being of their assigned child(ren). CASA volunteers also provide to their assigned children advocacy for enrichment opportunities and educational services, and teen life skills mentorship as appropriate. Dane County CASA serves the Dane County courts pursuant to Wis. Stat. § 48.236, the “Court Appointed Special Advocate” provision of the Wisconsin Statutes, and pursuant to its Memorandum of Understanding with the Dane County Juvenile Courts.

- Number of kids served by the Dane County CASA Program in 2017: 115
- CASA Volunteer hours spent in 2017: 3,276
- Placement of kids served by the Dane County CASA program in 2017 (where kids spent a majority of the year):

Biological home: 53

Relative care: 20

Foster care: 37

Residential placement: 5

- Number of children involved in different types of cases served by the Dane County CASA program in 2017 (when more than one applies, both counted):

CHIPS: 102

Delinquency: 14

Juvenile Court Referrals

Referrals to the Juvenile Court by Law Enforcement are filed with the District Attorney’s office and the Department of Human Services and are then screened and assessed by the Department of Human Services. After the assessment is complete, Human Services sends a recommendation to the District Attorney’s office as to whether or not to go forward with a formal delinquency petition, a deferred prosecution agreement, counsel and release and/or to use the information in case planning. There is an expedited process when a juvenile is taken into custody and is under a temporary physical custody order.

In some cases, referrals may contain several “counts” or charges for one juvenile, while in other situations there may be multiple referrals, each containing single allegations. In either case, the data provides a general picture of the number of referrals law enforcement make to the court for delinquency intake services.

In terms of the number of referrals compared to prior years, the following table illustrates the trend. Juvenile Court referrals have been on a decreasing trend until last year.

JUVENILE COURT REFERRALS

Race	2010	2011	2012	2013	2014	2015	2016	2017	AVG

Closing

The Juvenile Court Program looks forward to continuing to serve the people of Dane County and we are working hard to stay in tune with the changing needs of our diverse community.

Continuing in 2017, the entire Dane County Juvenile Court Program (JRC, SH, Detention and HDP) kept a database that was used to collect and tabulate data. Data on juveniles in Detention was also collected in the State's Juvenile Secure Detention Registry (JSDR). With this more accurate and efficient method of dealing with statistics, the ability to deliver information about the trends and patterns affecting the youth of Dane County is greatly enhanced.

"Thank You" to all of the agencies who contributed to this report. Questions, comments, or suggestions regarding this report, and/or the Juvenile Court Program generally, would be welcome and should be directed towards any of the persons listed below. Past reports can be found on the department's website at: <https://juvenilecourt.countyofdane.com/>
